

now hear this.

Welcome to NHT 2.0!

And welcome to our new website. It doesn't look much different at first glance, but it is, significantly. NHT has become entirely web-based and in doing so has fundamentally changed the way we market our brand. And we're very excited,

What does all this mean to you?

It means our prices have been permanently reduced by as much as 30% from their original suggested retail. You can still buy NHT through your favorite retailer or installer and now you can buy directly from us, www.nhthifi.com, the factory.

It means we have redirected resources at new product development in a much broader assortment of applications. We have about eight concepts in process right now.

It also means no matter where you buy, your NHT speakers will be delivered to your home or job site direct from our factory. It makes sense. The speakers take a single trip, which saves energy, saves money, saves time...everybody benefits.

Our web business is going to be a "living" process, lots more change and adjustments to come. You can help. First, help us spread the word. Second, give us feedback. There is a review section on each product page, write one if you can. If there is something you think we should be doing and are not, write us at bizdev@nhthifi.com.

Thanks to so many for all the kind words of encouragement. It's good to be back.

Regards,

Chris Byrne
